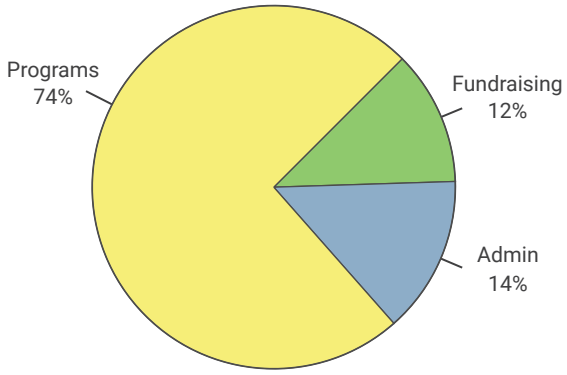
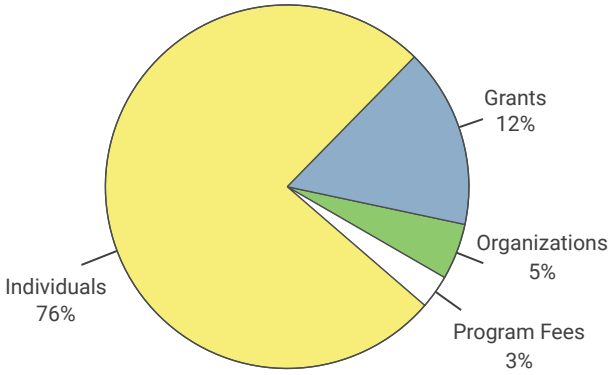
Massachusetts Rivers Alliance

2017 ANNUAL REPORT

Expenses: $179,200



Revenues: $181,500



Thank you, Mass Rivers members, for your continued, generous support. Unlike many other nonprofit organizations, the majority of our support comes from you, our individual and family members — not from large foundations or government grants. This gives us the flexibility to respond to both threats and opportunities as they arise — and ensures that our only agenda is to stand up for rivers. Period.

In 2017 we continued to grow, adding new organizations and individuals to our alliance. We had a very good year, and are proud of our accomplishments — improving the state's drought resiliency, litigating for stormwater controls, and successfully pushing back against an ill-considered attempt to move pollution control to the state. See you out on the rivers!
